## Coursework

Data Science

Programming for Data Science

Statistical Theory and Methods

Learning Skills through Case Studies

Artificial Intelligence

Machine Learning

Statistical Learning

Deep Learning

## Skills

### PROGRAMMING

Python • R • SQL

### MISCELLANEOUS

Tableau • Microsoft Office • Power-Bi • Big Data • MongoDB

## Honors

- Secured the second and sixth school rankings in the 2014 math and science Olympiads, respectively. And the top spot in the 2015 Mathematics Olympiad.

## Other experiences and internships

### RESEARCH ASSOCIATE

EMPOR MARCOM

📅 April 2021 – Aug 2021

📍 Delhi, India

- I was working as a research associate there. My main role was to reach out to the delegate provided by the organisation and convince them to register for the concerned project.
- I was part of a team that excelled in every project assigned to us, and I did my part admirably.

### OFFICE MANAGER (INTERN)

STAR DEALS

📅 Jan 2020 – March 2020

📍 Delhi, India

- There, I was the office and staff manager. My main responsibility was to supervise a workforce of 20 people and handle the day-to-day operations of the office.

### BUSINESS DEVELOPMENT EXECUTIVE (INTERN)

WAVEDIO TECHNOLOGIES PVT. LTD.

📅 June 2018 – Aug 2018

📍 Delhi, India

- I was a Business Development Executive at the time. I assisted with product sales and marketing.
- For the company, I brokered a lot of deals.

### EVENT ORGANIZER (VOLUNTEER)

SHRI BALAJI NISHKAM SEVA SAMITI

📅 2015 – Present

📍 Delhi, India

- I'm helping out as a volunteer here. Apart from other priorities, I am able to find some free time to contribute to society by becoming a part of this organisation.

## Recent Projects

### BREAST CANCER CLASSIFICATION

ASIAN ACADEMY OF FILM AND TELEVISION

On a breast cancer data set, a project was carried out under the direction of the school of data science. The task entailed classifying breast cancer according to whether the lump is malignant or benign. Different machine algorithms, including support vector machines, decision trees, and random forests, were applied for classification.

### IMAGE CLASSIFICATION ON CIFAR DATA-SET

ASIAN ACADEMY OF FILM AND TELEVISION

To classify the images in the CIFAR data set, another project under the supervision of school of data science was carried out. In order to accurately classify the images in the data set, a CNN model with various hidden layers was built.
